SUMMARY

I am a third-year honors student at the University of Georgia studying Computer Science and have training and experience in both Java, C++, and Swift programming.

I am a bright critical thinker with a proven talent for learning quickly in results-oriented environments.

Through years of working at summer camps, I have developed great leadership, communication, and teamwork skills, being able to create environments where everybody feels both included and valued.

SKILLS

Java

C++

Swift

Application Design

Software Design

Problem Solving

EXPERIENCE

Glisson Camp & Retreat Center, Dahlonega, GA — *Camp Counselor*

May 2019 - July 2019

- worked with children and adults with mild to moderate developmental disabilities
- created an environment that uplifted campers and allowed their uniqueness to shine

Glisson Camp & Retreat Center, Dahlonega, GA — *Camp Crew*

May 2018 - July 2018

- performed various jobs and tasks around camp to have it run smoothly
- lifeguarded, helped facilitate high ropes course, set up and cleaned the dining hall, and other jobs
- had a major impact on preparing me for college and how to balance a schedule, work within a group, and gain an overall greater understanding of managing the new independence and responsibilities you're given in college
